

Winners of Innovation Challenge at the Dewang Mehta IT Awards 2019

Date: 12/08/2019

RUDRABOTS

Dream it, Print it !

RUDRABOTS, an early stage startup founded by Tarun Rijwani and Parth Suthar, incubated under SSIP (Student Startup and Innovation Policy of the Govt. of Gujarat) at IITRAM, became the proud winner of the Innovation Challenge in the Dewang Mehta IT Awards, an event organized on the 10th of August 2019, by the Dewang Mehta Foundation Trust, in collaboration with the Department of Science & Technology, Gujarat Technological University and Gujarat Informatics Ltd. . A total of 49 startups from all over Gujarat had showcased their innovative ideas and products in the competition, and RUDRABOTS came in first place for their innovation in the field of 3D printing. 3D Printing is used to convert ideas into physical objects and RUDRABOTS is aiming to reduce the cost of 3D Printing technology and to revolutionize the market.

RUDRABOTS primarily manufactures 3D printers for both educational, as well as industrial purposes, at extremely affordable rates. Additionally, they also organize training programs for schools, colleges and industries.
