

EUNOIA 2.0

900 minds 1 vision

EUNOIA 2.0 is a one-day techno-cultural intra-college fest organized by the students of IITRAM. It involves the expression of innovative ideas through various technical and literary competitions, exhibitions and panel discussions.

EUNOIA 2.0 2019 took place on 12th October 2019 in the college premise. The day began with an inaugural program that flagged off the event following which various technical and literary events were conducted in parallel sessions. The event featured talks and activities such as Industry 4.0, SPIFF (Sustaining Present Infrastructure For Future), CADMAX, STAAD PRO (Structural Analysis and Designing Program), Line Follower, Cash from Trash, Poetry and Speeches, WIMS (World Is My Stage), Quiz, Debate to name a few.

The cultural evening Malhar 2.0 was an extravagant and a power pack three hours program with enthralling performances by the students. The event witnessed students taking active participation in showcasing their talents through various performances.
